Linux Failure (4322): Configuration Initialization Failed – Error and Solution

Posted by [Vivek Gite](#) <vivek@nixcraft.com>

Q. I'm getting error that read as follows while installing the RHEL / CentOS Linux Directory Server on the Red Hat Enterprise Linux system.

[1]

Failure (4322): Configuration initialization failed error when

How do I fix this issue?

A. To fix this issue simply install compat-libstdc++ package using up2date or yum command RHEL / Fedora / CentOS Linux systems.

Install the compat-libstdc++ package on RHEL v3 /4

```
# up2date compat-libstdc++
```

Install the compat-libstdc++ package on RHEL v5 / CentOS / Fedora Linux

```
# yum -y compat-libstdc++
```
