Linux route add command

Posted by [Vivek Gite](#) <vivek@nixcraft.com>

Q. How do I add new / default gateway using route command under Linux?

A. You can use any one of the following tool to add route:

=> **route command** : show / manipulate the IP routing table

=> **ip command** : show / manipulate routing, devices, policy routing and tunnels

[1]

Linux route add using route command

Route all traffic via 192.168.1.254 gateway connected via eth0 network interface:

```
# route add default gw 192.168.1.254 eth0
```

Linux route add using ip command

Just like above but with ip command:

```
# ip route add 192.168.1.0/24 dev eth0
```
