## Plesk type themes for webmin Web hosting control panel

Posted by [Vivek Gite](#) <[vivek@nixcraft.com](mailto:vivek@nixcraft.com)>

Q. Where can I download Plesk type themes for webmin Web hosting control panel?

A. [Webmin](#) <sup>[2]</sup> is a system configuration tool for Unix-like systems. It has a web-based interface (GUI) desktop environment independent, for configuring some of the internals of the operating system. Webmin is largely based on Perl, and is running as its own process, and web server. It usually uses TCP port 10000 for communicating, and can be configured to use SSL if OpenSSL is installed.

[1]

### Download additional webmin themes

Webmin comes with few built in themes such as caldera and some default. There is no plesk like theme exists for Webmin. However you can download other themes from following location.
