Fedora Linux (HCL) hardware compatibility list

Posted by [Vivek Gite](#) <vivek@nixcraft.com>

If you are not able to obtain Fedora Core HCL then it is available online via Red Hat site. Whatever HCL supported by Redhat Linux (RHEL) is also supported by Fedora core linux. Here are direct links to Red Hat Hardware compatibility List as well as other site that will help you to make your final decision:

- Graphics adaptors - <http://wiki.x.org/wiki/FAQ> ^[1]
- Audio adaptors - <http://www.alsa-project.org/> ^[2]
- Printers - <http://www.linuxprinting.org/> ^[3]
- Digital cameras - <http://www.gphoto.org/> ^[4]
- Scanners and imaging devices - <http://www.sane-project.org/> ^[5]
- Modems - <http://linmodems.org/> ^[6]
- The Red Hat Hardware Catalog, the database containing certified and compatible hardware for Red Hat products is [here](#) ^[7]
- Also, do not forget to check out [Fedora Community Project Wiki](#) ^[8] it has some good information
