**Q.** How do I print line numbers on printer for my c / java code written using vi / vim text editor under Linux / UNIX operating system?

**A.** To print line number on screen and hardcopies such as printer type the following two commands while vim / vi text editor is open:

**set number**

**set printoptions=number:y**

Add above two commands to your ~/.vimrc file; so that settings get loaded everytime you start vim.
