Macbook Shell / MacbookPro shell: Protective Leather Shell

Posted by Vivek Gite <vivek@nixcraft.com>

Do you recommend protective leather shell for Macbook systems?

Yes, shell can protect [2] your system against food, liquid spills, scratches, and much more. Plus it looks [1] great and gives your MacBook a grippy feel for further security from dropping your MacBook. However, you need to use specially designed shell for you MacBook, otherwise you may face overheating problems. Make sure your shell supports:

1. Access to all ports and CD/DVD slot
2. Protective leather shell
3. Specially designed for you MacBook
4. Avoid heat built-up etc
