Ubuntu Linux Remove Oracle Express Edition

Posted by Vivek Gite <vivek@nixcraft.com>

I know how to install Oracle XE [2] on Debian / Ubuntu Linux. But, how do I remove Oracle
Express edition under Ubuntu Linux?

You can use apt-get command to remove / delete Oracle express edition server from the Debian
/ Ubuntu Linux.

[1]

Open terminal.

Type the following command to delete it:

```
sudo apt-get remove oracle-xe
```
