## How to Update Ubuntu Linux

Posted by Vivek Gite <vivek@nixcraft.com>

Q. How do I upgrade / update Ubuntu Linux to latest release or software such as 7.10 / Gutsy Gibbon?

A. Ubuntu 7.10 is the current version of the Ubuntu operating system. You can only directly upgrade to Ubuntu 7.10 ("Gutsy Gibbon") from Ubuntu 7.04 ("Feisty Fawn"). First apply all updates by Clicking **System** > **Administration** > **Update Manager** > **Check** Only apply updates   [1]

Once all updates installed, click on System > Administration > Update Manager > Check > A message will appear informing you of the availability of the new release

[2]

Click on **Upgrade** button > follow the on-screen instructions.
